

CR-VOLIII

Volume controller

CR-VOLIII

Size (mm) :
100.0(L)X90.0(W)X25.0(H)

Product overview

The CR-VOLIII is an outstanding volume control module, which works with a main controller to realize mute for left and right sound channel, volume control, and treble control.

Features

- CR-NET, serial port, and network control.
- Maximally support 2 ways control.
- CR-NET bus control, support ID dial settings.

Specifications

The parameter name	CR-VOLIII
Input impedance	100KΩ
Output impedance	30Ω
Frequency response	60Hz-20KHz (0db Max.)
S.N.R	>90db
Communication Methods	CR-NET, serial port, network
CR-NET address code	ID dial
Control ways	2
Power Supply	DC12V,CR-NET power supply
Maximum power consumption	4W/12V
