CR-MTSS4

4 ways sensor transmitter

CR-MTSS4

Size (mm): 100. 0 (L)X90. 0(W)X25. 0 (H)

Product overview

The CR-MTSS4 is a 4 ways sensor transmitter, which works with a main controller, and can send data via serial port and network bus. It supports connections with sensors of humidity, light, smoke, and human detection. It is used in smart home, boardroom and some industry environment.

Features

- Serial port, network control.
- Maximally support 4 sensors.

Serial port, network communication.

Specifications -

The parameter name	CR-MTSS4
Communication methods	Serial port, network
Sensor types	Humidity, temperature, light, smoke, human detection
Simultaneously supported sensor quantity	4
Power supply	DC12V
Maximum power consumption	3W/12V
